**\*\*Governing Authority:\*\*** Office of the Dean of Student Affairs, Directorate of Residential Operations, and the University Council

**\*\*Classification:\*\*** Institutional Statutory Directive — Binding on all Registered Residents

**\*\*Effective Date:\*\*** Michaelmas Term, Academic Session 2026–2027

---

## ### PREAMBLE AND STATUTORY MANDATE

Pursuant to Section 22 of the University Governance Act and the charter resolutions ratified by the Board of Trustees, these Residential and Student Life Regulations constitute the legally binding framework governing residential occupancy, conduct, fiscal commitments, campus mobility, health, safety, and administrative discipline across all halls of residence, off-campus university-managed lodging facilities, and contiguous collegiate properties.

Every matriculated student admitted to institutional housing enters into a binding covenant with the University. Physical occupancy of any dormitory room, suite, studio, or residential hall flat constitutes voluntary accession and unconditional consent to the clauses, stipulations, procedural penalties, and administrative remedies articulated within this document. Claim of ignorance regarding these published regulations shall not be admitted as a viable ground of defense, mitigation, or exoneration in any inquiry, tribunal, or appeals proceeding.

---

## ## SECTION 1: ROOM ALLOCATION PROTOCOLS AND TENANCY CRITERIA

### ### 1.1 Authority and Jurisdiction of Housing Administration

**\*\*Section 1.1.1:\*\*** The Directorate of Residential Life exercises plenary and non-delegable authority over the allocation, reallocation, reassignment, revocation, and administrative configuration of all residential premises under University ownership, management, or leasehold.

**\*\*Section 1.1.2:\*\*** Housing allocations are granted solely on an individual, non-transferable, and term-limited license basis for the standard academic year (encompassing the Autumn and Spring instructional semesters), excluding official inter-term recess periods unless an explicit summer extension is authorized in writing.

**\*\*Section 1.1.3:\*\*** The University retains all underlying property rights, custodial sovereignty, and absolute possessory title over all room spaces, furniture fittings, structural appurtenances, and common living zones. Under no circumstances does residential allocation convey a legal tenancy, perpetual leasehold, or exclusionary real estate interest.

### ### 1.2 Eligibility Priority Matrix and Allocation Algorithms

**\*\*Section 1.2.1:\*\*** Allocation of residential space operates strictly according to an institutional priority rubric approved by the Academic Council:

**\*\*First Priority:\*\*** First-year undergraduate matriculants entering straight from secondary school or accredited foundation programs;

**\*\*Second Priority:\*\*** Registered international students and mobility exchange scholars holding valid student visas;

**\*\*Third Priority:\*\*** Scholars with documented physical impairments certified by the University Medical Board requiring dedicated accessible ground-floor housing units;

**\*\*Fourth Priority:\*\*** Final-year undergraduate researchers completing accredited capstone studio or empirical laboratory theses;

**\*\*Fifth Priority:\*\*** Continuing undergraduate and postgraduate students in good academic and disciplinary standing, allocated via a randomized computerized ballot.

**\*\*Section 1.2.2:\*\*** Students placed on active disciplinary probation, or those possessing outstanding, delinquent financial balances with the University Bursar, are disqualified *ipso facto* from participation in room allocation balloting exercises.

### ### 1.3 Room Assignment, Physical Check-In, and Inventory Manifests

\* \*\*Section 1.3.1:\*\* All approved residents must formally report to their assigned Hall Porter's Office during the gazetted registration window to execute check-in formalities, receive programmed electronic RFID keycards, and verify their presence on the resident roll.

\* \*\*Section 1.3.2:\*\* Every resident must execute a Room Condition and Inventory Manifest within forty-eight (48) hours of physical entry. This document records the baseline material condition of walls, ceilings, fixtures, furniture, mattresses, window latches, structural power outlets, and communal plumbing fittings.

\* \*\*Section 1.3.3:\*\* Failure to return the signed Room Condition and Inventory Manifest within the prescribed forty-eight (48) hour timeline creates an absolute, irrebuttable legal presumption that the allotted unit was delivered in pristine, flawless condition. Consequently, any damages, scratches, losses, or structural deformities discovered during subsequent interim or clearance inspections shall be assessed exclusively to the account of the newly inducted occupant.

### ### 1.4 Unauthorized Relocation, Room Subletting, and Key Custody

\* \*\*Section 1.4.1:\*\* Room reassignments or peer swaps are strictly prohibited unless formalized through an official Administrative Room Exchange Petition approved by the Chief Warden and Warden of Residence.

\* \*\*Section 1.4.2:\*\* Subletting, leasing, commercial hosting, informal room-sharing, or the granting of residential access to unassigned students or external civilians is classified as a Level IV Major Violation. Any student found engaging in unauthorized commercial or non-commercial room transfer shall face immediate eviction, forfeiture of all residential deposits, and suspension from the University for a minimum of one academic term.

\* \*\*Section 1.4.3:\*\* Physical keys, access fobs, and RFID smart cards issued to a resident remain the exclusive property of the Directorate. Residents may not duplicate keys under any circumstance. Lost keys must be reported immediately to the Hall Porter, incurring a mandatory lock-replacement charge of one hundred and fifty dollars (\$150.00) billed directly to the student's financial account.

---

## ## SECTION 2: RESIDENTIAL FEES, FISCAL CLEARANCES, AND FINANCE/HOSTEL REGULATIONS

### ### 2.1 Fee Assessment, Deadlines, and Bursar Settlement

\* \*\*Section 2.1.1:\*\* The schedule of residential room charges, utility surcharges, network infrastructure levies, and amenity fees is approved annually by the Finance Committee of the Board of Trustees and published in the Official University Fee Compendium.

\* \*\*Section 2.1.2:\*\* All accommodation fees must be settled in full prior to the issuance of room keys or physical occupancy authorization. The University Bursar will issue no clearance, temporary permit, or financial provisional waiver unless verified payment appears in the institutional clearing account.

### ### 2.2 Security Deposit Administration

\* \*\*Section 2.2.1:\*\* Every resident must maintain a mandatory refundable Residential Caution Deposit of five hundred dollars (\$500.00) with the University Cashier throughout the tenure of occupancy.

\* \*\*Section 2.2.2:\*\* The Caution Deposit serves as collateral against unpaid incidental repairs, specialized cleaning costs necessitated by negligent sanitation, unreturned library materials held in living areas, room key replacement, or unliquidated communal property damage levies.

\* \*\*Section 2.2.3:\*\* Caution Deposits, net of any lawful statutory deductions or disciplinary fines assessed during the academic session, shall be refunded within sixty (60) calendar days following the resident's complete physical check-out and receipt of an authenticated Clearance Certificate from the Hall Warden.

### ### 2.3 Damage Assessments, Collective Liability, and Restitution

\* \*\*Section 2.3.1:\*\* Individual occupants are strictly liable for the repair and full replacement cost of any institutional property damaged within the confines of their private assigned bedrooms.

\* \*\*Section 2.3.2:\*\* Where physical damage, vandalism, broken fixtures, defaced murals, or damaged communal assets occur in shared living spaces (including kitchens, corridors, study lounges, stairwells, and communal ablution facilities) and the individual perpetrator cannot be identified through investigative logs or security surveillance, the doctrine of \*\*Joint and Several Collective Liability\*\* shall apply. The total cost of restorative repairs, labor, and administrative overhead shall be assessed equally across all residents of the specific floor, wing, or residential block.

#### ### 2.4 Finance and Hostel Fee Regulations

\* \*\*Section 2.4 (Finance/Hostel):\*\* All tuition payments are non-refundable once orientation day commences, regardless of withdrawal date.

\* \*\*Section 2.4.1:\*\* Residential accommodation fees are subject to an identical stricture: no rebate, proration, partial abatement, or refund of residential room charges shall be issued to any student who voluntarily withdraws from housing, is expelled from housing for disciplinary malfeasance, or is suspended from the University following the official commencement of the orientation schedule.

\* \*\*Section 2.4.2:\*\* In the event that a student is suspended or debarred from institutional residence as a punitive sanction imposed under Section 10 of this Policy, the student remains fully liable for the contractual accommodation fees of the entire academic session without right of offset or counter-claim.

---

### ## SECTION 3: CURFEW, INGRESS/EGRESS, AND ELECTRONIC ACCESS CONTROL

#### ### 3.1 Standard Curfew Hours and Gate Closures

\* \*\*Section 3.1.1:\*\* To guarantee physical safety, fire egress containment, perimeter defense, and an environment conducive to intellectual scholarship, all residential halls observe mandatory nightly curfew restrictions.

\* \*\*Section 3.1.2:\*\* Standard Curfew Hours operate as follows across all seven days of the academic instructional calendar:

\* \*\*Hostel Entry Gate Closure:\*\* Exactly 23:00 hours (11:00 PM);

\* \*\*Hostel Morning Reopening:\*\* Exactly 06:00 hours (06:00 AM);

\* \*\*Main Perimeter Campus Gates:\*\* Curfew enforced strictly from 23:30 hours (11:30 PM) until 05:30 hours (05:30 AM).

\* \*\*Section 3.1.3:\*\* Residents returning to their respective halls of residence after 23:00 hours are deemed in direct violation of the residential curfew code and shall be admitted only under the Late Entry Protocol delineated in Section 3.2.

#### ### 3.2 Late Entry Verification and Mandatory Breathalyzer Protocols

\* \*\*Section 3.2.1:\*\* Between the hours of 23:01 and 01:00, access to the residential hall is restricted solely to the main supervised security turnstile of each respective hall.

\* \*\*Section 3.2.2:\*\* Any resident seeking late entry must present a valid University Biometric ID, state the explicit operational cause for the delayed arrival, and execute a verified physical entry in the Official Late Ingress Register.

\* \*\*Section 3.2.3:\*\* Campus Security and Residential Porters possess full legal authority to administer an immediate, random breathalyzer analysis or digital blood-alcohol screening to any individual seeking late entry who exhibits signs of intoxication, slurred speech, behavioral instability, or uncoordinated motor function. Refusal to submit to a lawful screening directive constitutes an automatic Level III Disciplinary Infraction under Section 10.2.

\* \*\*Section 3.2.4:\*\* A cumulative accrual of three (3) late entries within a single semester results in the immediate generation of a Formal Dean's Warning Letter. A fourth late entry triggers an automatic referral to the Residential Disciplinary Board with a recommendation for residential eviction.

#### ### 3.3 Overnight Absence, Exeat Permits, and Travel Disclosures

\* \*\*Section 3.3.1:\*\* A resident intending to remain away from the assigned hostel overnight must file a formal electronic \*\*Exeat Permit Application\*\* via the Student Information Portal not less than twenty-four (24) hours prior to the anticipated departure.

\* \*\*Section 3.3.2:\*\* The Exeat application must state the exact address of destination, personal emergency contact telephone numbers, parental or guardian notification acknowledgments (mandatory for all undergraduate students under twenty-one years of age), and the certified projected time of return.

\* \*\*Section 3.3.3:\*\* Departure prior to the electronic approval of the Exit Permit by the Hall Warden constitutes an Unauthorized Night Absence, incurring an automatic fine of one hundred dollars (\$100.00) per night and placing the candidate on immediate probationary oversight.

#### ### 3.4 Perimeter Security, Tampering, and Unlawful Breach

\* \*\*Section 3.4.1:\*\* Any resident who facilitates, abets, or assists another individual in evading perimeter security gates, scaling walls, forcing emergency escape doors, disabling magnetic lock sensors, or propping open secure fire doors shall be subjected to immediate summary eviction and referred to the University Police Liaison for criminal trespass investigation.

---

### ## SECTION 4: AUTHORIZED ELECTRONIC EQUIPMENT, FIRE SAFETY, AND ELECTRICAL APPLIANCES

#### ### 4.1 Permitted Low-Wattage Electronic Devices

\* \*\*Section 4.1.1:\*\* Due to stringent electrical grid load limitations and heightened fire hazard profiles in shared residential architecture, only specifically designated, low-wattage electronics bearing international safety certifications (e.g., CE, UL, or ISO standard markings) are permitted within private bedrooms.

\* \*\*Section 4.1.2:\*\* The following devices are explicitly authorized within assigned rooms:

- \* Personal laptop computers, desktop computational units, and associated visual monitors (maximum 350W total combined draw);

#### ### 4.3 Confiscation Mechanics, Administrative Impoundment, and Fines

\* \*\*Section 4.3.1:\*\* Any prohibited electrical device discovered during scheduled inspections or unannounced safety sweeps shall be summarily seized and impounded by the Hall Warden, Chief Security Officer, or Facilities Supervisor.

\* \*\*Section 4.3.2:\*\* Confiscated devices shall not be returned to the student during the active semester. Impounded items shall be retained in secure storage until the final day of the academic session, whereupon the owner may retrieve the item for immediate permanent removal from campus grounds.

\* \*\*Section 4.3.3:\*\* The discovery of any prohibited heating or cooking appliance incurs an automatic non-negotiable fine of two hundred dollars (\$200.00) for the first violation, assessed directly against the student's Bursar account. A second violation results in the permanent revocation of residential housing rights.

#### ### 4.4 Electrical Safety, Circuit Alterations, and Fire Suppression Infrastructure

\* \*\*Section 4.4.2:\*\* Tampering with, disabling, covering, or removing smoke detectors, heat sensors, fire alarm strobes, emergency horn assemblies, break-glass call points, or fire extinguishers constitutes a felonious life-safety hazard. Any resident discovered committing such acts shall be subjected to an automatic fine of five hundred dollars (\$500.00), immediate campus eviction, and criminal indictment.

---

## ## SECTION 5: VISITOR PROTOCOLS, COHORT ACCESS, AND GUEST POLICIES

### ### 5.1 Visiting Windows and Authorized Reception Zones

\* \*\*Section 5.1.1:\*\* Non-resident visitors, external guests, and students registered in other residential blocks are strictly confined to designated public communal zones (the Main Hall Lounge, ground-floor reception lobbies, and central dining facilities).

\* \*\*Section 5.2.2:\*\* The resident host maintains strict personal and legal responsibility for the deportment, movements, decorum, and actions of their guest at all times. If a guest commits property damage, engages in disorderly conduct, or violates campus directives, all associated sanctions, fines, and disciplinary proceedings shall attach directly to the hosting resident.

\* \*\*Section 6.1.2:\*\* All organic domestic waste, food remnants, packaging materials, and paper refuse must be deposited exclusively inside authorized, tied refuse bags and placed in central trash chutes or external dumpster bays. Accumulating garbage inside living quarters that generates odors, invites pest vectors, or threatens collective public health is an administrative violation.
